

Wellness Kraft — Logo Usage Brief for Website Designer

Logo File

The attached logo (**Wellness-Kraft-Logo.jpeg**) is final and approved — please use this exact mark. Do not redraw, re-illustrate, or recreate it from scratch.

Before development begins, please request/prepare these formats from the logo source:

- Transparent-background **PNG** (for use on any non-cream background)
- **SVG/vector** version (for crisp scaling across all screen sizes — favicon, retina displays, large hero placement)
- A simplified **icon-only** version (the figure/leaf mark without the wordmark) for favicon, app icon, and small-space use like social media profile pictures

Brand Colors (sampled directly from the logo)

Color	Hex Code	Use
Deep Olive Green	#334720	Logo strokes, primary brand color, headings
Cream/Off-White	#FEFAEF	Logo background, primary site background

Use these as the core palette anchors — feel free to derive lighter/darker tints of the olive green for secondary UI elements (buttons, links, backgrounds), but keep the exact hex above for anything using the logo directly.

Full Website Color Palette

Beyond the two core logo colors, use this full palette for consistent site-wide design (see attached **Website-Color-Palette.svg** for a visual swatch reference):

Primary (from logo)

--	--	--

Color	Hex	Use
Deep Olive	#334720	Logo, headings, primary buttons
Cream	#FEFAEF	Main backgrounds, matches logo exactly

Neutrals

Color	Hex	Use
Charcoal	#1E1E1E	Body text (better readability than pure black)
Muted Sage	#6B7A5E	Secondary text, borders, subtle UI elements
Soft Cream	#F4F1E6	Section backgrounds, for separation between page sections
White	#FFFFFF	Cards, product listings, forms

Accent (use sparingly)

Color	Hex	Use
Fresh Sage	#8FA876	Hover states, secondary buttons, highlights
Turmeric Gold	#C98A3E	Featured/bestseller tags, warm accent tied visually to Ayurveda
Alert Red	#B23B3B	Error states, out-of-stock, form validation
Success Green	#3D7A4E	Confirmation messages, order success, in-stock indicators

Usage principle: Olive + Cream carry the brand identity throughout. Neutrals handle the actual UI (text, cards, backgrounds). Accent colors stay reserved for specific functional moments — don't let Turmeric Gold or the alert/success colors compete with the olive green for attention, or the site will feel busy instead of calm.

Typography Note

The wordmark uses a serif typeface with wide letter-spacing (tracking) for "WELLNESS KRAFT." For consistency, use a similar serif (e.g., **Georgia, Playfair Display, or Cormorant**) for site headings, so the website typography feels connected to the logo rather than mismatched with a generic sans-serif.

Placement & Usage Guidelines

- **Header/Navbar:** Use the horizontal lockup (icon + wordmark side-by-side) if space allows, or icon-only on mobile/compact nav
- **Favicon:** Icon only (the meditating figure + leaves), simplified if needed at very small sizes
- **Footer:** Full logo (icon + wordmark stacked, as in the original) works well
- **Minimum clear space:** Leave padding around the logo roughly equal to the height of the circular “head” element in the icon — don’t let text or other elements crowd it
- **Do not:**
 - Stretch or distort the proportions
 - Change the stroke color from the approved olive green (except for a white/cream reversed version on dark backgrounds, if needed)
 - Add drop shadows, outlines, or effects not present in the original
 - Place it on busy background images without a solid color block behind it

Reversed/Dark Mode Version

If the site includes any dark-background sections, request a **cream-colored version of the logo** (same linework, colors inverted) for use on dark backgrounds — do not simply place the dark-green logo on a dark background as it will lose visibility.

Summary for Designer

Treat this logo as final brand asset — the only work needed is producing the correct technical formats (SVG, transparent PNG, favicon sizes) and applying the color/typography system consistently across the site, not redesigning or reinterpreting the mark itself.
