Section: Why We're Different

Heading: Guidance first. Products second.

Most wellness brands sell you a bottle and hope for the best. We start with a real conversation — understanding your body, your habits, and what's actually causing the problem. Every recommendation, every product, every plan comes after that understanding, not instead of it.

Three pillars (icon + short text each):

1. **Expert Consultation** — Talk to qualified Ayurvedic doctors who look at your whole lifestyle, not just your symptoms.
 2. **Natural & Harmless Products** — Every product we recommend is natural, tested, and free from harmful shortcuts.
 3. **Guidance That Sticks** — Diet charts, workout plans, and supplement schedules built around your real life, not a generic template.
-

Section: Conditions We Help With

Heading: Whatever's holding you back, we've likely helped someone through it.

Weight management · PCOS · Diabetes & blood sugar · Thyroid imbalance · Digestive issues · Stress & burnout · Poor sleep · Low energy & fatigue

(Each links to its own condition page with a "Book a Consultation" CTA)

Section: How It Works

Heading: Your path to lasting change

1. **Consult** — Book a session with an expert who understands your situation
 2. **Get Your Plan** — Receive a diet chart, workout schedule, and supplement plan tailored to you
 3. **Stay Supported** — Follow up, track progress, and adjust as you go — we don't disappear after one session

Heading: Your lifestyle change starts with one conversation.

Subtext: No pressure, no gimmicks — just real guidance from people who understand what you're going through.

ABOUT PAGE

Heading: We believe wellness should be guided, not guessed.

Muscle Vigor and Wellness Kraft exist because too many people are left to figure out their fitness, nutrition, and lifestyle problems on their own — piecing together advice from the internet, trying products with no real understanding of what their body actually needs.

We do it differently. Our model is built around **expert consultation first** — real Ayurvedic doctors who take the time to understand what's actually going on with you, not just what symptom you're trying to fix. From there, we support you with natural, harmless products and practical guidance — diet charts, workout schedules, and supplement plans — built around your life, not a one-size-fits-all template.

We're not here to sell you a bottle and move on. We're here to help you change something that lasts.

What We Stand For

- **Expertise over guesswork** — every recommendation comes from a qualified professional
- **Natural over harsh** — we only recommend products that are safe, natural, and honestly labeled
- **Guidance over gimmicks** — real plans, real follow-up, real change
